

Project CY 8609

Task

1. Describe the Technical Facility located Vic:

SG1A

2. Within the following ten year period determine if and when any "special events" occur:

* Note: If you do find any "special events" - - - subsequent sessions will be focused on each separate "special event."

STAGE 6 WORKSHEET

	SOURCE:	003	
	MISSION NUMBER:	8609	
	SITE:	SG1A	
	TARGET:	<u>SIGNIFICANT EVENTS (IF ANY)</u>	

[REDACTED]

Since that
it's not to be
Don't let too far
from now. And caution
must be taken to prevent
too great a system of the
as to drain occurring so
it from outstreak on to
the people involved who
want to know about
the whole project.

frustrated

S4 1/2 frustrated not because he's being harassed but because things aren't happening at the rate he wants. But he's the type that is long on drive + ambition but short on patience, + even if things happened ever faster, it would never be fast enough. "Things" involve other people performing well but interlocking functions with a finite and concrete conclusion to finally be reached.

54 1/2 what analysts & monitoring agencies would
pick up as far as outside activities &
device generated phenomena.

54 1/2 indicators - relevant/significant people gathering
changes in set patterns, RF scheduling; ^{equipment} interference
patterns; power shifting; a/cft operation in
vicinity.

Site

construction + assembly of some actual device or equipment which is new/experimental, dangerous w/ perhaps weapon potentials + ~~high~~ ^{requiring} high power levels to accomplish purpose. Sub assembly trials have taken place, + soon in the future will be a major trial "run" of virtually the whole device. It won't be "finished" yet, but all major portions will be ready for interactive/interconnected testing. It involves meticulous construction + miles of wiring engineering. Caution must be taken to avoid too much "signature" during the test to draw unwanted outside attention. Device + ~~it~~ is part ~~of~~ located in a structure which is part old (masonry) part new (partially metallic) which has a "science theme" about it, it constructed haphazardly, and may have wings + a courtyard or open area associated with the middle part of it.
